Undergraduate Advising Check Sheet

2008-2009

Family & Community Services

Student Name: _____ W#: _____ Adviser: _____

All students pursuing a bachelor of science degree in Family and Consumer Sciences are required to complete: a) University Studies Program (USP) requirements; b) departmental core curriculum; and c) courses within the selected option.

The **University Studies Program** (USP) ensures that each student's program includes the elements essential to a lifetime of personal and professional growth: habits of mind, practices of active citizenship, and development of intellectual skills. The USP program requires students to develop skills that include the ability to express oneself in speech and writing; to locate, evaluate and effectively use information; and to examine problems from quantitative, qualitative, and scientific perspectives. The USP requirements will be approximately 36 credit hours of your overall degree program (see page 4).

All courses within Family and Consumer Sciences must be completed with a grade of C or better. The **department core curriculum** is required of all majors (see page 2). This requirement is based on a common body of knowledge in family and consumer sciences which contains concepts relevant to all program options. The department core will be 16-18 credit hours of your overall degree program. **FCSC 1010, your first core course, is the beginning of the department mandatory electronic portfolio assessment system. It must be taken in your first year. If you drop, withdraw or do not pass the course with a grade of C or better, you will be prevented from re-enrolling for one semester of the course offering. If you drop, withdraw, or do not pass the course with a grade of C or better after two attempts, you will be dismissed from your family and consumer sciences major.**

The **requirements for your selected option** are listed on page 2 of this check sheet. It is important to understand course sequencing (when courses are offered) and prerequisites (other courses that must be taken first). Each student has a faculty adviser. You will be advised each semester. It is important that you work closely with your adviser to plan your course schedule. For a complete list of all course descriptions, visit <http://uwadmnweb.uwyo.edu/registrar/bulletin/crsdept.html>.

University Requirement – All degrees at the University of Wyoming require 48 upper-division credit hours (3000+).

Residency Requirement – All degrees must include a minimum of 30 credit hours from UW.
