

## 2003 ABSTRACTS

- Gilbert, J.S., K.A. Vonnahme, M.J. Nijland, P.W. Nathanielsz and S.P. Ford. 2003. Maternal Undernutrition during early to mid-gestation alters fetal development in the ovine fetus. Proceedings, Society for Gynecologic Investigation, Washington D. C. (Abstract # 779)
- Vonnahme, K.A., J.S. Gilbert, M.J. Nijland, P.W. Nathanielsz and S. P. Ford. 2003. Influence of a constant nutrient restriction from early to midgestation on maternal and fetal blood glucose concentration and hepatic glycogen content in the sheep. Proceedings, Society for Gynecologic Investigation, Washington D. C. (Abstract # 420)
- Nathanielsz, P.W., K.A. Vonnahme, G. Wu, T.E. Spencer, M.J. Nijland and S.P. Ford. 2003. Placental-hepatic amino acid cycling is impaired during maternal nutrient restriction (NR) between 28 and 78 days of gestation (dGA) in sheep. Proceedings, Society for Gynecologic Investigation, Washington D.C.(Abstract # 422)
- Navanukraw, C., D.A. Redmer, A.T. Grazul-Bilska, M.L. Johnson, D.R. Arnold, F.L. Arnold, P.M. Fricke, S.P. Ford and L.P. Reynolds. 2003. Follicular vascular endothelial growth factor (VEGF) and endothelial nitric oxide synthase (eNOS) expression, and vascularity before selection of the dominant follicle in cattle. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 532)
- Yoshitaka, K., P.W. Nathanielsz, K. Aida, K.A. Vonnahme, J.S. Gilbert and S.P. Ford. 2003. Basal fetoplacental vascular tone in sheep at mid gestation: role of nitric oxide. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 105).
- Ford, S.P., K.A. Vonnahme, J.S. Gilbert, B.W. Hess, M.J. Nijland and P.W. Nathanielsz. 2003. Placental differentiation may compensate for maternal nutrient restriction from early to mid gestation in rambouillet ewes adapted to range conditions. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 274).
- Vonnahme, K.A. and S.P. Ford. 2003. Selection for above average placental efficiency increased placental expression of the vascular endothelial growth factor (VEGF) receptor system in pigs. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 228).
- Nijland, M.J., Y. Kimura, K. Aida, K.A. Vonnahme, J.S. Gilbert, S.P. Ford and P.W. Nathanielsz. 2003. Ovine fetal placentomal arteries at 78 days gestation lack functional endothelin-B receptor subtype activity. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 106).
- Gilbert, J.S., K.A. Vonnahme, M.J. Nijland, P.W. Nathanielsz and S.P. Ford. 2003. Impacts of gender and re-alimentation after maternal nutrient restriction from early to mid gestation on kidney development in the ovine fetus. Proceedings, Society for the study of Reproduction, Cincinnati, OH. (Abstract # 433).

Han, H.C., K.J. Austin, K.A. Vonnahme and S.P. Ford. 2003. Maternal nutrient restriction programs gene expression in ovine fetal heart. Proceedings, Society for the Study of Reproduction, Cincinnati, OH. (Abstract # 432).
