

2008 ABSTRACTS

Zhu, M.J., M.S., Strable, J.T. Brenna, M. Du, B.W. Hess, G.E. Moss, P.W. Nathanielsz, and S.P. Ford. 2008. Maternal obesity and overnutrition increase placental fatty acid (FA) transport. Proceedings, Society for Gynecologic Investigation, San Diego, CA (Abstract #107).

Ford, S.P., L. Zhang, M.J. Zhu, B.W. Hess, G.E. Moss, and P.W. Nathanielsz. 2008. Maternal obesity accelerates pancreatic β -cell mitotic rate and insulin secretion in fetal sheep. Proceedings, Society for Gynecologic Investigation, San Diego, CA (Abstract #421).

Ford, S.P., L.A. George, A.N. Iroz, B.W. Hess, G.E. Moss and P.W. Nathanielsz. 2008. Maternal obesity combined with a high plane of nutrition during pregnancy alters glucose (GL) tolerance of the ewe and her offspring. Proceedings, Society for Gynecologic Investigation, San Diego, CA (Abstract # 67).

Zhu, M.J., G. Wu, B.W. Hess, G.E. Moss, P.W. Nathanielsz, and S.P. Ford. 2008. Maternal obesity and over-nutrition down-regulates system A amino acid (AA) transporter 2 (SNAT2) in ewe placentomes. Proceedings, Society for Gynecologic Investigation, San Diego, CA (Abstract #506).
